

## Varování

### před používáním lovecké zbraně Sauer 303

---

Český úřad pro zkoušení zbraní a střeliva upozorňuje všechny uživatele samonabíjecích zbraní **Sauer 303**. Od května 2009, nepřesnou montáží na úderníku, došlo k tomu, že úderník je 0,3 mm delší, než je konstrukčně dovoleno. Zajišťovací zařízení úderníku může být spuštěno a nadměrně dlouhý úderník by mohl dosáhnout zápalky a dojít k nechtěnému výstřelu. Při použití hrozí riziko vážného poranění.

Toto varování se vztahuje na typ SAUER, produkce 2009 a následující sériová čísla:
